Publisher's announcement.—The COURIER-JOURNAL (◎◎), Louisville, daily, Sunday and weekly. Not only has quality of circulation, but also quantity, and has a larger home circulation than any paper published in Louisville. While an old and conservative newspaper, it has never lacked progressiveness. It was the first paper outside of New York City to introduce the Mergenthaler linotype machine. Its plant is the largest and most complete of any newspaper south of the Ohio river. It is carried every day of the week on a special train of its own to the heart of the wealthy "Bluegrass region," and has a larger circulation in that territory than any other daily.

Its circulation is large and growing, and its methods are straightforward and direct. The NEWS is THE evening daily of Baltimore. Publisher's announcement.—A thriving, busy little city; large print works, woolen and cotton mills, machine shops and shoe shops—all paying good wages, balanced by a strong element of the solid, old New England stock—that's North Adams. A country of little independent farms, dotted with prosperous manufacturing plants, worked by a class of people noted for their thrift and intelligence—that's northern Berkshire. The whole knit into a community, with North Adams as a trading center, by three competing trolley companies.

For over half a century the "paper" of these people has been the TRANSCRIPT: a home paper in a community of homes—not the paper of a *class*, but the paper of a *community*.

The daily average number of TRANSCRIPTS printed during the last three months of 1904 was **6,166.**

The Weekly TRANSCRIPT has a circulation exceeding 1,200, entirely among the farmers of the surrounding territory.

MORE SALES.

What an advertiser *wants* is more sales.

What we *give* the advertiser is more sales.

How we do it is something it took us a long while to learn.

We have taken hold of propositions that have been just about playing even, or losing money—and have made them successful.

We can give good, sound, business-like assistance to manufacturers and sellers, preferably in the Middle West, who have an article of merit that can be sold at a profit.

In laying out plans for an advertising campaign we keep the *sale of the goods, at a profit,* continually before our eyes. Perhaps the advertisement itself may not be the most artistic creation ever produced—but it is a part of a campaign that has only one end—*success and sales.*

We don't expect every one who reads this to believe it—without proof.

But *we know* what we are talking about,—above all—*we know what we have done.*

We work *with* you—then we *both* win.

Our "Guide for Advertisers" has 300 pages of information about advertising and advertising mediums. Mail for 10 cents.

GUARANTEED

☞ **The absolute correctness of the latest circulation rating accorded the Journal is guaranteed by the publishers of Rowell's American Newspaper Directory, who will pay one hundred dollars to the first person who successfully controverts its accuracy.**

Publisher's announcement.—During 1904 The JOURNAL carried 222,992 more lines of advertising in 314 week-day issues than any other Minneapolis daily and Sunday paper carried in 365, including 52 big Sunday issues—this, too, in spite of the fact that The JOURNAL refused over 184,000 lines of objectionable medical display and classified advertising, which it would not accept, and which its competitors carried. The JOURNAL leads all papers in Minneapolis, St. Paul and the Northwest in the character and volume of local, foreign, land, real estate, financial, book and educational advertising, and in classified advertising that counts. The JOURNAL reaches a greater number of the purchasing classes and goes

into more homes than any other paper in its field. Its advertising columns are more valuable and produce more for the money expended than those of any other paper in its field.

The JOURNAL is recognized throughout the Northwest as "The paper of character that does things." The public looks to it to lead every movement—commercial, social, political, patriotic.

As a matter of plain truth, there's only one. Rowell's American Newspaper Directory is the Webster's Dictionary for advertising. ☞ The absolute correctness of the latest circulation rating accorded the daily Tribune is guaranteed by the publishers of Rowell's American Newspaper Directory, who will pay one hundred dollars to the first person who successfully controverts its accuracy.

Publisher's announcement.—The TRIBUNE publishes each week more general advertising than any other daily newspaper in the Northwest. Its daily average circulation for the last three months of 1904 shows an increase above the daily average for the entire year as reported above. The daily average was 92,222, Sunday 71,221.

The TRIBUNE has always made a complete report of its circulation in Roll of Honor in *Printers' Ink.* The TRIBUNE is the only Minneapolis daily that regularly publishes a detailed statement of its circulation in its own columns.

The TRIBUNE is the recognized Want ad medium of Minneapolis and has been for many years. It is the oldest Minneapolis daily and has over 92,000 subscribers, over 25,000 each day above any other Minneapolis daily.

The Evening TRIBUNE alone has a larger circulation in Minneapolis, by many thousands, than any other evening paper.

The TRIBUNE publishes over 80 columns of Want advertisements every week at full price (average of two pages a day), no free ads; price covers both morning and evening issues. No other Minneapolis daily carries anywhere near the number of paid Wanted advertisements or the amount in volume.

The Evening TRIBUNE and the Morning TRIBUNE are identical *in all departments* except current news, which is taken up to both the morning and evening hour of closing. It is guaranteed that the issues do not reach the same subscribers. The delivery insures the reader a paper in the evening or morning as suits the pleasure of the home where taken. All advertisements appear in *both* papers for the the one price quoted. (Evening TRIBUNE, 60,000; Morning, 32,000). The Minneapolis circulation *alone* of the TRIBUNE is over 40,000 daily. State's circulation (exclusive of Minneapolis), 50,000.

MISSISSIPPI'S PAPER

Mississippi is to-day the most prosperous State in the Union. The low price of cotton created a diversification of industries which has rapidly increased the population and made the people exceedingly prosperous. The high price received for the large 1903 cotton crop, and also the good price received for the bulk of the 1904 cotton crop, has placed millions of surplus money in the hands of the people. The lumber industry is bringing many millions of dollars into the State annually. Many train loads of vegetables and fruits are shipped daily in season. The farmers are using improved farm machinery, raising pure bred stock, and producing more on a single acre than they formerly obtained from two or three. The SOUTHERN FARM GAZETTE is the only agricultural journal published in the State. It is published at Starkville, where the A. & M. College and the Experiment Station are located, and is recognized as the authority on Farm and Home matters. It is mailed on the 1st and 15th of each month to 7,000 wealthy planters and farmers. We are anxious to prove to you that we never mail less than this number. No whisky, obscene or humbug advertisements are inserted. The advertisers are guaranteed to be reliable. Sixteen pages, four columns to page. Length of columns, 12 inches; width, 2⅛ inches. Forms close five days before date of issue. Rates, 5c. per agate line.

Publisher's announcement.—AWARDED FEBRUARY 15, 1899, BY *Printers' Ink*, THE LITTLE SCHOOLMASTER IN THE ART OF ADVERTISING, TO "THE KANSAS CITY STAR;" THAT PAPER, AFTER FOUR MONTHS' CAREFUL WEIGHING OF EVIDENCE, HAVING BEEN PRONOUNCED THE ONE PUBLISHED WEST OF CHICAGO WHICH GIVES AN ADVERTISER THE BEST SERVICE IN PROPORTION TO THE PRICE CHARGED.

THE STAR accepts all advertising on condition that the paid circulation of its daily and Sunday editions exceeds 120,000 each issue and that the paid in-advance circulation of its weekly edition exceeds 225,000 each issue, or no charge whatever is made. The circulation of its daily and Sunday editions is more than double the combined circulation of all the other Kansas City dailies, and its advertising rate is less per thousand of circulation than that of any other paper west of Chicago. Kansas City advertisers pay THE STAR annually more money than they pay to all the other local mediums.

THE KANSAS CITY TIMES, THE STAR'S morning newspaper, has the same circulation as THE STAR, namely, 120,000 copies each issue.

The circulation has been certified by the Association of American Advertisers. Nearly every family in the city reads one or the other of these papers, in large territories the average being 97 per cent of the homes—all delivered by our own carriers. Publisher's announcement.—The EVENING JOURNAL, a strong Republican paper, is conceded to be the leading paper in Hudson County, the strongest Democratic county in New Jersey. Inspection of its columns at once shows the reason. More completely than any other paper it represents the greatest number of local interests in its district.

It is a two (2) cent paper, with a *home,* not a *street* circulation among the people who have the means to purchase goods advertised.

Its circulation is continually and steadily increasing.

In 1899 it averaged 14,486; in 1900, 15,106; in 1901, 15,891; in 1902, 17,532; in 1903, 19,012; in 1904, 21,106.

For the last three months of 1904 it was 21,816, and is still growing. **See advertisement below.**

Publisher's announcement.—The Evening News circulation largely exceeds that of any other newspaper in New Jersey. It presents an exceptional opportunity to advertisers to reach through one medium the people of a city numbering 280,000 inhabitants and suburban communities numbering about 150,000 more. It thoroughly covers the field and is delivered by complete carrier system in nearly every home in Newark and the surrounding towns, making it the medium absolutely indispensable for all who wish to reach the buying classes. The News is a strictly up-to-date high class two-cent evening newspaper, with a circulation of about 60,000 copies.

Publisher's announcement.—Binghamton's only morning paper, the afternoon field being divided among three papers. Several of Binghamton's largest retail stores recently increased their regular spaces in the REPUBLICAN and confined their afternoon advertising to one paper. The REPUBLICAN has a strictly home circulation. Only one edition—that delivered to the homes. No street sales. Covers all rural free delivery routes same morning as printed. On most routes practically every farmer is a regular subscriber. Only Republican daily in the overwhelmingly Republican County of Broome. A medium that is highly successful in appealing to women and the advertising of medium and high grade articles. No objectionable advertising accepted. Report of last examination by Association of American advertisers, November 3d, 1904, mailed on request.
